THE INNOVATORS OF COMFORT™

Original Collection
2018/2019

EKORNES®

Some sensations
cannot be explained

– only experienced

Some sensations cannot be described and the feeling of comfort is one of them. Stressless® is renowned for its unique level of comfort.

Welcome to our world, a world of relaxation and well-being combined with elegance and style. We offer a multitude of different variations allowing you to personalise your choice. The moment is yours, sit back and enjoy!

You can also visit us on stressless.com, Facebook and Twitter for further inspiration and information.

Some moments
cannot be explained
– only experienced

Plus™ System

Finally, a moment to yourself to recharge your batteries. Watch a film, read a good book or just wind down. Lean back and notice how the chair follows your movements.

The unique Plus™ system always gives you maximum comfort and support for your neck and lumbar region, regardless of whether you're sitting or lying down. The sleep function is activated with a simple hand movement, making your moments of comfort even better. Sleep tight.

Pages 32-33

BalanceAdapt™

Finding a good sitting position and allowing your body to relax, achieving a balance in life isn't always easy.

With the integral BalanceAdapt™ system, the chair adjusts its seat and back angle to your movements – in perfect harmony with your body. The gentle rocking motion increases your comfort in all positions, and all thanks to your own body weight. Everything in perfect balance, fully adjusted to your requirements whenever you need it most.

Pages 34-35

LegComfort™

As you'll agree, your legs deserve some top-class comfort after a long, hard day at work.

Our unique Stressless® LegComfort™ system takes that feeling of comfort to new heights. The comfortable footrest is elegantly concealed beneath the seat but slight pressure extends it outwards, providing superlative support for your legs. Finally you can enjoy that relaxing feeling you've been looking forward to all day.

Pages 36-37

ErgoAdapt™

In the hectic whirl of daily life, having a moment to yourself is vital. Take a seat, and notice how your body sinks smoothly into the soft cushion.

With the integral ErgoAdapt™ system, you can enjoy a relaxing sensation of comfort in every situation. The sofa adjusts to your body, whether you're sitting or lying down. Little by little your shoulders relax, cocooning you in comfort.

Pages 38-39

8-29

Since 1934, we've had the pleasure of supplying homes all over the world with superior levels of comfort. Explore our models and pick your favourite. Modern, urban or classic – the choice is yours.

30-41

Plus™ System

BalanceAdapt™

Leg Comfort™

ErgoAdapt™

Sitting in a Stressless® recliner or Stressless® sofa is a relaxing experience. Our knowledge of comfortable sitting and movement stimulates our innovations and the desire to design the most unique furniture in the world. We offer exclusive functions that work both separately and harmony to bring you unrivalled comfort.

Stressless® Consul (M) Signature recliner shown in Paloma Purple Plum/Wenge.

Plus™ System

Relax and feel your heart rate slowing down. Imagine the ability to relax without the worry of today's stresses hanging over you.

The Plus™ system permits automatic adjustment of the support to your neck and lumbar region, allowing you to read or watch TV even when fully reclined. The Plus™ system features on all Stressless® recliners and high-back sofa models with the sofas including individual seat control.

The Glide function is integrated in the Stressless® wheel. Simply turn the wheel to select the most suitable resistance for you and you shall experience a tailored level of comfort every time you sit down.

You can also easily activate the headrest sleep function allowing you to have a ten-minute catnap or an hour long snooze – the choice is yours.

BalanceAdapt™

BalanceAdapt™

Our bodies were designed for movement and variation, not for sitting still. BalanceAdapt™ gives you a unique sensation of perfect balance. The seat angle automatically adjusts to the slightest body movement as the back and seat move together in harmony.

The gentle rocking motion increases your comfort in all positions. In our recliners, this system allows you to lie back even further.

All our Stressless® recliners with Signature and Star bases come with BalanceAdapt™. The recliner also includes the Plus™ system providing optimum support for the neck and lumbar region allowing you to really unwind with this system.

Plus™ System

Stressless® Leo sofa and **Stressless® Metro** recliner shown in Paloma Dark Olive.
Stressless® Urban Large table.

LegComfort™

Plus™ System

LegComfort™

Our unique Stressless® LegComfort™ system takes that feeling of comfort to new heights.

The comfortable footrest is elegantly concealed beneath the seat but slight pressure extends it outwards, providing superlative support for your legs. The length of the footrest can be adjusted to suit everyone. This system is available on all our Medium and Large Stressless® recliners with the Classic base, and on our Stressless® Breeze sofa. LegComfort™ is combined with the Glide and Plus™ systems, ensuring that the chair follows your movements and provides perfect support for the neck and lumbar region in all sitting positions.

This places your body in perfect balance, and believe us – it feels wonderful.

ErgoAdapt™

ErgoAdapt™

With the integral ErgoAdapt™ system on Stressless® E200, E300 and E400 models, you can enjoy a relaxing sensation of comfort in every situation.

The tilt mechanism in the seat cushion allows the sofa to adjust automatically to your body so that you sink smoothly down into the soft cushion. The neck support can be easily adjusted with a gentle tug, making the seat even more comfortable. The Long Seat has its own specially adapted headrest with the same innovative functions. All you have to do is sit back and enjoy.

From zero position to tilt position The Stressless® ErgoAdapt™ system automatically tilts the seat as you sit down, providing perfect comfort and support.

Lying down flat, no tilt When you lie down on the sofa the seat stays completely flat, offering exquisite comfort and enabling you to take full advantage of the oversized seat.

The Long Seat automatically tilts down to give your legs perfect support when seated, but stays completely flat when you lie down.

Stressless® E400 sofa and Long Seat shown in Paloma Almond. Stressless® Enigma table.

Try our famous Comfort test

and see why you have to experience
the magic of comfort for yourself

Can you adjust the headrest so
that it lies flat when you recline?

Is your head supported comfortably
as you lie down to read or watch TV?

Do you feel that the seat back
reclines sufficiently?

Does the chair provide good lumbar
support in all positions?

Does the recliner feel robust and safe?

The ultimate sensation of comfort is individual and personal to everyone. Everyone has different needs, and that's exactly why we encourage all our customers to try a Stressless® so that you can find a recliner of the right size that suits your own personal tastes. We guarantee this will be time well spent. After all, a Stressless® recliner is an investment that you'll go on enjoying for many years to come.

Are the height and width of the chair right for you?

Are you aware of how your entire body relaxes?

Is the ottoman positioned in the right place to give you maximum leg support?

Do the chair and ottoman move with you as you change position?

Does the gliding movement smoothly adjust to the weight of your body?

Colours, trends and inspiration

One of the fascinating things about trends is that they never stop changing. Sometimes inspiration can come from the past or new creations and the same is true of home interior trends.

Participating in trend seminars and trade fairs help us keep up to date with the latest colours, fabrics and interiors. We incorporate the best from these trade fairs into our collection to ensure it always remains cutting edge. We aim to provide you with a multitude of variations so you can make your home meet your own personal needs.

Our world of modern comfort now offers a wide and varied range of colour schemes bringing more opportunities for personalisation. We offer colour scales ranging from extremely light, almost transparent colours to sophisticated, smokey pastels. Deep, subdued earthy colours offer calm and comfort and tend to match most homes which has become a key trend. Our large collection provides you with plenty of choice allowing you to experiment with the many exciting combinations on offer.

Take a look through our new catalogue and be inspired to mix and match some of your own colour combinations.

Stressless® offers four categories of leather in a selection of beautiful colours

BATICK is a corrected, pigment-improved and grain-embossed upholstery leather, which has had most of its natural marks removed. Batick may have a two-tone colour effect to liven up the surface. Batick is resistant to fading, although changes in colour will occur over time due to use and exposure to light. A protective layer of lacquer simplifies cleaning. Simple cleaning, excellent utilisation properties and a favourable price make Batick a good choice.

CORI is a corrected, pigment-improved and grain-embossed upholstery leather. Cori is somewhat thicker, and has a larger pebbled grain, than Batick. Most of its natural marks are removed. Also, some of the Cori colours have a two-tone colour effect to liven up the surface. A protective layer of lacquer simplifies cleaning. Cori is a wise choice if you want leather with excellent utilisation properties and a robust structure.

PALOMA is a slightly corrected leather with a combination of dyes and pigments that smoothes down some of the structure (the grain pattern) of the leather. The grain structure in Paloma may, however, vary a little at some parts of the furniture and also minor colour nuances may appear in the leather. Natural marks, scars and insect bites are natural and will appear in Paloma. A thin coat of lacquer gives Paloma some protection and simplifies cleaning, but Paloma does not have the same heavy-duty quality and protection as Batick and Cori. Due to its soft, natural and comfortable expression, Paloma is a very popular choice.

NOBLESSE is the most exclusive leather in Stressless® collection. It is a full grain, semi-aniline leather, which means that the leather is dyed using a light surface treatment. This provides a certain amount of protection, while maintaining the natural softness and glow that are characteristic of a first class upholstery leather. A natural material such as Noblesse retains its original grain and structure, and various grain patterns may be visible at different areas of the furniture. Minor colour variations and marks resulting from scars and injuries may also be visible, and are characteristic of a natural material like Noblesse. Due to the light surface treatment, Noblesse is the most delicate of Stressless® leathers. It easily absorbs moisture and is extra sensitive to wear, heat, exposure to sunlight, stains and sweat. Regular maintenance is important in order to maintain the leather's exceptional appearance.

Stressless® upholstery leather

Stressless® is one of Europe's largest consumers of leather. We purchase the leather from selected tanneries all over the world. Our own inspectors take part in the leather selection, which is conducted in accordance with international norms for quality determination. The experience we have gained from this work is for your benefit when you buy Stressless® leather furniture. Our leather is manufactured according to current laws, guidelines and recommendations relating to their utilisation properties, and for the use and content of chemicals and other substances. We are cooperating with recognised international institutions in this line of business, to ensure that we are updated at all times with events relating to health, safety and the environment.

The leather for our furniture is a natural material that comes from cattle hides

When the hide has gone through a tanning process and further processing to achieve the correct utilisation properties, it is called leather. One characteristic of hide is that it is marked by nature, vegetation and the care the animal has been subjected to. Cattle spend most of their lives outdoors, and will therefore be marked by external influences like insect bites, tears, scars, wrinkles, stretch marks, etc.

The following are some of the properties of leather that you should be aware of

Leather is a natural product and is a beautiful and lively material used in furniture-making. Each hide is unique in its structure, appearance, nuance and size.

Ekornes may use several hides when making your furniture. This, together with the leather's play of colours and natural marks, makes each piece of furniture unique. In time, the leather will age and gain patina. It is important that you are aware of one thing: although leather furniture can withstand a lot of wear and tear, its appearance will change with the years.

The following applies to all types of leather used by Stressless®: Hide absorbs dyes differently, and therefore the leather may have colour nuances. These are due to dissimilarities and different fibre structures, which affect the colouring of the hide and how the hide absorbs the dyes during the tanning process.

All our leather qualities are through-dyed, but there could always be a deviation between

the basic colour of the hide (the colour of the side that faces the upholstery side of the furniture), and the colour of the grain side (the external side): i.e. the colour of the outer layer. This is normal. It is possible to use the same basic colour for leathers with different top colours.

Dyes and dyeing methods may vary between the different leather colours and leather qualities. Therefore, the basic colour and the colour of the top layer (which forms the wear layer and the final desired colour of the finished product) of a given leather quality may differ.

Some of the leather dyes have a two-tone colour effect (shadow/antique effect). Leather dyed with a two-tone effect may change character faster and wear more unevenly than leather with just one colour. This applies in particular to areas of the furniture that are exposed to harder wear such as armrests, seat cushions and neck supports.

The top layer protects the leather and simplifies cleaning, but is nonetheless vulnerable to soiling and wear. If the top layer/top colour is destroyed, the leather may deteriorate faster. Penetrating spills/damage/scratches are normally irreparable and may result in the top colour changing character, cracking or peeling off.

Denim clothes and hard textiles, such as dungaree jeans, expose the leather to strong wear and may leave colour on the leather which is difficult to remove, without risking destruction of the top colour of the leather. Light leather colours in particular are vulnerable to such colour contamination.

All furniture leather sold by Stressless® is resistant to light, but changes in colour may occur as a result of use and extensive exposure to light. Consequently, furniture should not be exposed to direct sunlight or direct heat from heaters and other sources of heat. Leather is vulnerable to exposure to oils from direct contact with human skin (especially of the neck and hands).

Remember: leather has a relatively long life-time, but can easily be destroyed by incorrect handling.

Stressless® Ezoo, Calido Aqua.

Stressless® fabric collection

Our specially selected fabric collection meets the furniture industry's strictest requirements. Stressless® fabrics are produced in accordance with strict environmental conditions and are treated for heavy-duty use, light tolerance and inflammability. Choose from our wide selection of colours to match your interior.

Please note that colour changes will occur over time as a result of use and the effects of exposure to light. You should always protect your furniture from direct sunlight. To prolong the life and appearance of your recliner or sofa, the fabric upholstery should be regularly vacuumed, professionally dry-cleaned or cleaned with our approved Stressless® Fabric Care kit.

Calido is a wool felt fabric with an exclusive appearance, which feels comfortable and soft next-to-the skin. It is available in a varied and exclusive colour palette.

Crocus is a flatwoven fabric with a look that's subtle and appealing. This fabric suits most models. It's a timeless classic, a fact also reflected in the selection of colours available.

Dahlia has a slight sheen to its surface, which gives the fabric an exclusive and elegant look. The fabric feels soft, cosy and inviting. The attractive colour palette emphasises the classic and timeless appeal of the fabric.

Dinamica is a well-known microfibre-quality fabric with an appearance resembling chamois leather. This is soft and very comfortable, breathable and non-static. Easy to keep clean and highly wear resistant.

Faron is a bouclé fabric. It has a rough, coarse structure but still feels soft and comfortable against the skin. The weave of this fabric makes it extremely strong and hardwearing, with good durability. The fabric has an even colour tone and is available in a broad range of colours.

Grace is a velour with a medium length pile. The soft, silky texture has a fine sheen and provides an attractive interplay of colours. Grace is hardwearing, comfortable to sit on and easy to keep clean.

Iris is a classic yet trendy bouclé. Several colours are woven into the fabric, allowing exciting colour combinations with other fabrics or leather. The tiny loops in the fabric may naturally lose their springiness over time, so regular vacuum-cleaning is important to help the fabric retain its beautiful appearance for many years to come.

Ivy is a flat-weave fabric with subtle nuances in the surface. The attractive two-tone effect gives the fabric a comfortable look. Ivy offers excellent durability and is easy to keep clean.

Jasmine has a fine, softened structure which makes the surface appealing. We've selected a range of dusty, subdued colours that can easily be combined with colours from our leather collection.

Karma is a flatwoven fabric with multi-coloured thread, which provides a soft and harmonic melange effect and a vivacious appearance.

Linden has a strong structure. The weave includes threads in different shades and with various levels of shine, providing attractive, subtle variations in the surface.

Silva is a pure and timeless wool fabric that feels comfortable next to the skin. This fabric is available in a muted and classic colour palette.

Verona is a velour fabric with short pile. This fabric may appeal to anyone who prefers a less glossy surface. Verona is wear resistant, comfortable and easy to keep clean.

York looks attractive and is soft, cosy and comfortable. This fabric is suitable for both firm and soft models and is available in a fine range of stylish, subtle colours. This fabric is therefore a good fit for most homes, and is also easy to keep clean.

3 select leather/fabric and wood type

The final brushstroke on a painting can make all the difference. You have eight different wood colours to choose from in addition to the wide range of colours and qualities in our leather and fabric collection. See the overview of leather and fabric types on pages 44-47.

Stressless® wood colours

Ekornes uses rotary cut beech veneer in all its moulded furniture components. Lightly steamed beech is used for solid wood components. The hardness of the wood makes beech furniture extremely durable, and the timber we use is a renewable resource. Beech is a natural material and variations in its pattern, colour and texture make each piece of furniture unique. Although beech is used for both solid and moulded components, structural differences may be visible.

Stressless® accessories

Classic elevator ring.

The Stressless® elevator ring adds an extra 3,5 cm to the seat height and is your key to comfort if you require extra height. Simply snap it on: no tools necessary. The Stressless® footstool elevator ring adds 3,5 cm to the height of the footstool.
Fits all footstools produced after 1 March 2004

Hard Floor Protector

Self-adhesive felt for use under the base to protect your floor. For the Classic base.

Signature elevator-kit.

If you require additional height for your Stressless®, you can order an elevator kit if you have a Signature base. This is easy to attach and will increase the height of your chair by 3 cm.

Discover the secrets of personal comfort

1. The perforated foam, moulded directly over the frame, gives you improved seating comfort since the indentations allow you to sink deeper into the seat and back of the recliner. Comfort Zones™ (patent pending) provide the proper contours for your body, offer good ventilation and guarantee that the cushions will remain long-lasting and comfortable.
2. A soft polyurethane foam pad ensures optimum softness.
3. The soft polyurethane foam pad is covered with a layer of super-soft polyester fibre for a real touch of luxury.
4. Flexo springs on a steel frame ensure durable construction and strength.
5. The Plus™ system automatically provides the correct support for your head and lower back. The function is double-sided for maximum stability, functionality and lifetime use.
6. Only genuine top-grain leather and high-quality fabrics cover the front and back of Stressless® chairs.
7. The Stressless® glide system automatically adjusts to your body weight, with no buttons or levers to pull.
8. The various bases provide full stability and allow you to turn a full 360 degrees.
9. Laminated beech base. All colours are stained and varnished.

10 YEAR
GUARANTEE
AGAINST FABRICATION FAULTS
ON INTERNAL MECHANISM

The patented Stressless® Plus™ system automatically adjusts the headrest as you recline – supporting your neck while you read, watch TV and rest.

Anatomically correct lumbar support in all positions – synchronises with the neck support function as part of the Stressless® Plus™ system.

The sleep function is activated with one simple movement to lay the headrest flat.

For unbeatable comfort, set the Stressless® wheel once and then adjust your sitting position simply by using your body weight.

Plus™ System

Create your dream sofa

Your sofa is the focal point of your home, the place where you come back to earth after a long day. Whether you sit on your sofa to discuss the day's news over a cup of coffee, or relax there with a good book, or settle back for an evening of entertainment in front of the TV, the sofa is the hub in your home. You can combine modules of your choice, select different wood types and choose from our luxurious leather and fabric collections to create the sofa of your dreams. And with so many unique options, all your requirements can be met and you'll find the perfect furniture to match your home.

1 select model

Make your selection from our range of designs and sizes to quickly discover the perfect comfort.

2 select layout

Whether your living room is big or small, our layouts can be easily adapted to fit. You're in charge here. Take a look at stressless.com to view all the layout options and dimensions available.

Try our Stressless® configurator on stressless.com

3 select leather/fabric and wood type

The final brushstroke on a painting can make all the difference. You have eight different wood colours to choose from in addition to the wide range of colours and qualities in our leather and fabric collection. See the overview of leather and fabric types on pages 44-47.

Stressless® wood colours

Ekornes uses rotary cut beech veneer in all its moulded furniture components. Lightly steamed beech is used for solid wood components. The hardness of the wood makes beech furniture extremely durable, and the timber we use is a renewable resource. Beech is a natural material and variations in its pattern, colour and texture make each piece of furniture unique. Although beech is used for both solid and moulded components, structural differences may be visible.

Stressless® Arion SC 11111 and Stressless® Arion SC 1111 shown in Cori Mustard. **Stressless® Oval** ottoman.

Stressless® Arion SC 11 shown in Batick Chilli Red. **Stressless® Oval** ottoman.

Stressless® Home Cinema

You move more than 300 times during the length of a movie. This might sound exhausting, but don't despair – Stressless® seating is designed to adjust to your every movement. The spacious, soft seats of your Stressless® Home Cinema seating, combined with a Stressless® ottoman, ensure an optimal movie experience.

Regardless of how much space you have available for your home cinema setup, our ingenious flexible modular designs ensure that there's always space for a Stressless®.

Find out more about the many options available at stressless.com

The Stressless® Sector (SC) / Sector Arm (SCA) is upholstered in the same way as the sofa and conceals a storage space beneath the top. The Sector / Sector Arm also functions as an armrest, which is why setups with Sector/ Sector Arm tables should be treated as a single, fixed unit.

Stressless® Arion SCA 121 shown in Paloma Black. **Stressless® Double** ottoman.

The Stressless® Double ottoman features ample leg room for two, plus a storage space inside. It also comes with an optional wooden tabletop, which can be placed on the ottoman to provide a handy table when needed.

The Stressless® Oval ottoman has been built around the same general idea – with its removable pillow, it also acts as a convenient table. The pillow can be stored beneath the tabletop when not in use.

The smart Sector tables and armrests complete the Stressless® Home Cinema setup – both functionally and aesthetically. Now there's no need to get up – everyone can keep their own giant bowl of popcorn or selected beverage within reach! The armrest also includes a practical storage space.

Tables and footstools

All our tables and footstools have been expressly designed to match the unique sense of comfort which is the very essence of Stressless®.

STRESSLESS® ENIGMA TABLE

A stylish glass table with an aluminium base.

Available in size W: 90 H: 44

STRESSLESS® URBAN TABLE

The stylish Stressless® Urban glass table is designed to match the new Stressless® Metro and City recliners. Choose from a large sofa table or a practical smaller version to place next to your Stressless® recliner.

W: 90 H: 48 / W: 55 H: 48

STRESSLESS® STYLE TABLE

An elegant sofa table and side table, available in several colour combinations. The slight difference in height means that the tables can be easily combined in different ways, either standing apart or close together. The tabletop is made from MDF with a melamine surface and is available in White, Black and Cream. The wooden legs are available in Black, Natural and Brown.

L: 137 D: 60 H: 47 / W: 55 H: 52

STRESSLESS® WINDSOR TABLE

Made from beech. Available in Natural or stained in the following colours: Oak, Walnut, Teak, Brown, Wenge, Grey and Black.

W: 132 D: 70 H: 48

STRESSLESS® USB TABLE A

A versatile table with a USB port, this fits all Stressless® chairs perfectly. Available in various combinations of glass or wood, with a black or chrome stem.

W: 52 D: 42 H: 50-73 (adjustable)

STRESSLESS® USB TABLE B

A versatile table with a USB port, this fits perfectly between two Stressless® chairs. Can also be used in front of chairs with a Star base. Available in various combinations of glass or wood, with a black or chrome stem.

W: 51 D: 55 H: 50-73 (adjustable)

STRESSLESS® ELLIPSE TABLE

This flexible, easy-to-move table is ideal, since it keeps everything you need within easy reach while you are in your "comfort zone".

W: 49 D: 38 H: 48-71 (adjustable)

STRESSLESS® CORNER TABLE

This practical table is perfect for placing between a pair of Stressless® recliners. Also ideal for any corner setup or home cinema arrangement.

W: 69 D: 60 H: 48

STRESSLESS® EASY ARMREST TABLE

This smart table has been designed for the Stressless® Arion and Stressless® Ezoo. Simply place the table on the armrest to provide a convenient extra surface.
W: 25 D: 23 H: 10

STRESSLESS® SWING TABLE

This table remains independent of your movements and can be simply swung aside when not in use. Can only be fitted to Classic base and LegComfort™ recliners.
W: 28

STRESSLESS® COMPUTER TABLE

This table provides a good working position and remains independent of your movements. Simply swing it to the side and fold it down when not in use. Can only be fitted to Classic base and LegComfort™ recliners.
W: 41 D: 31

STRESSLESS® DOUBLE OTTOMAN

This large ottoman offers ample space to put your feet up, while the storage space conceals a tabletop that can be placed on the ottoman when needed.
W: 119/154 D: 61 H: 44

STRESSLESS® OVAL OTTOMAN

The Stressless® oval ottoman has a removable cushion and doubles as a convenient table. When you don't need to put your feet up, simply store the cushion beneath the tabletop.
W: 90 D: 48 H: 47

STRESSLESS® OTELLO

A solid stool, available with either an aluminium or a moulded beech base.
W: 100 D: 50 H: 45

W: 51 D: 40 H: 44

W: 60 D: 60 H: 44

W: 53 D: 49 H: 44

W: 64 D: 70 H: 44

STRESSLESS® MODERN AND STRESSLESS® SOFT OTTOMAN

Our ottoman is ingenious in at least two ways. Firstly, it features a built-in tilt system, which ensures that the angle of the ottoman is adjusted to your sitting position. And secondly, it has room for all your extras under its removable top. Available in two sizes.

Stressless® Leather and Fabric Care kits

Ekornes offers its own leather and fabric (including microfibre) care kits to match the high quality of our furniture.

The Stressless® Leather Care kit (medium/large) contains a leather cleaner and protection cream. Stressless® Leather Care Wipes are also available. For maintenance, and to make the leather more resistant to stains, the protective cream should be applied to all your recliner's leather surfaces when new. We recommend that you clean the leather with Stressless® leather cleaner at least once every six months to keep your leather looking its best, removing stains regularly and ensuring long leather life. Always apply the protective cream after cleaning.

The Stressless® Fabric Care kit contains a fabric cleaner, a stain remover and an Ox cleaner. This kit contains everything you need to clean your furniture in minutes without removing the fabric cover. For resistant stains, use the fabric cleaner together with the stain remover and Ox cleaner.

These are the only cleaning products recommended by Ekornes. Ekornes accepts no responsibility if cleaning products other than those recommended by Ekornes are used and cause damage to the leather.

Ekornes and the environment

The objective of Ekornes is to accept environmental responsibility related to manufacturing, distribution and use of the company's products.

We will continue to implement initiatives in our factories that improve the internal and external environment, at the same time as we continue to select environmentally-friendly raw materials.

A sustainable manufacture of durable products will also in future be an objective in the development of our company.

The following core items shall be complied with in all parts of our activity:

- Ekornes shall appear as an environmentally-friendly enterprise. Our products shall cause the least possible impact on the environment.
- Ekornes has as its objective to keep the health risk at the workplaces at a minimum.
- Ekornes invests to avoid damage to the environment and injuries to health.
- Environmental information shall be generally available, for example through Environmental Product Declarations (EPD).
- Ekornes shall give objective and open information about how the company handles its environmental responsibility.

Ekornes has as its long-term objective to develop environmental issues to a competitive advantage through being ahead of our competitors also in this field.

Ekornes participates in the UN's Global compact.

Made in Norway
since 1934

The pleasure of comfort

Since 1934, we have had the pleasure of bringing comfort to homes all over the world. This has made Stressless® one of the best known brands in the furniture industry. The passion for detail and innovative solutions shared by all our staff enables us to create new systems that allow your body to rest and relax as comfortably as possible while also adding an impressive touch to your living room.

There are many reasons as to why our furniture is so comfortable. It has something to do with the people, the choice of materials and all the innovative solutions we've put into production. The landscape that surrounds us also plays a major part in defining what we produce. The majestic peaks and endless fjords of our country set our minds at ease and are the perfect destresser on the most stressful of days. If you haven't visited the fjords yet but would like a glimpse, even a tiny one, of this most majestic of Norwegian natural landscapes, we recommend giving Stressless® a try. This may very well be the closest you'll ever come to the bliss of pure comfort.
